

White Light Pocket Floodlight
MXN00220

The original Pocket Floodlight. Wide 170 lumen flood-style beam free of “hot” and “dark” spots, making it easy to clearly see what is being inspected. Tough T6 aluminum body is virtually indestructible. Uses 3 AAAA batteries, included. Approx. 6 inches long.
Order No. MXN00220

White Light Pocket Floodlight
MXN00320

Our newest design Pocket Floodlight features the same rugged construction and brilliant, wide beam of the original but is about 1 inch shorter. Like all Pocket Floodlights, has a heavy duty switch with both momentary and on full-on positions. Includes 2 AAA batteries.
Order No. MXN00320

UV Light Pocket Floodlight
MXN00324

This compact ultraviolet Pocket Floodlight is a high output 395 nm UV tool for A/C leak detection and many other jobs. Outperforms UV lights that are several times its size and weight, costing two or three times as much. Uses 2 AAA batteries, included.
Order No. MXN00324

Inspector Maxx
Rechargeable Work Light
MXN00420

The WorkStar® 420 Inspector Maxx is an industrial grade combination 200 lumen LED work light and 135 lumen LED penlight with rechargeable LiPo battery. It has a pocket clip with built in magnet and a red/green charge indicator. Includes a micro USB charging cord. The tough aluminum body is anodized red and is virtually indestructible. Approx. 7 inches long.
Order No. MXN00420

WorkStar®
Technician's Headlamp
MXN00621

The WorkStar® 621 Technician's Headlamp is a high performance rechargeable LED light producing up to 700 lumens. The beam has adjustable focus for distance, allowing you to select the appropriate beam dimensions, either flood or spot, depending on the distance from the work area. Select High, Medium or Low light output. The light head pivots up or down to direct the light, letting you easily light up the work area, regardless of whether you are standing, sitting or lying on your back. Comes with a 4 foot coil cord for mounting the battery pack on belt.

Includes 120v charger, USB cable and 4 plastic clips to allow mounting on hard hat.
Order No. MXN00621. For optional spare battery pack order number MXN00601.

NEW!
LightStik™
Close Quarters
Inspection & Work
Light
MXN01000

The WorkStar® 1000 LightStik™ is a versatile combination 600 lm work light and 120 lm inspection light. The inspection light on the tip of the light bar has that extra reach that allows seeing into close, confined quarters using a narrow light beam. The 5” long COB light bar makes an exceptional work light with 600 lumens for 2 hr on high and 260 lumens for 5.5 hr on low. The tilting head allows exact positioning of the light beam and the coated magnetic base lets the user quickly and easily attach the tool to any ferrous surface while avoiding scratching the surface. Ergonomics of this light are second to none and the design features light weight, comfortable high-grip handle and excellent balance. Includes 3 LED battery indicator, micro USB charging and 120 volt charger. Meets IP54 and IK07 standards.
Order No. MXN01000.

Tilts total of 120 degrees in 5 indented positions for exact placement of work light beam pattern

NEW!
WorkStar® 3000
Technician's Work Light
MXN03000

The WorkStar® 3000 Technician's Work Light is a lighting tool designed for daily use in demanding shop environments. The brilliant white flood-style light beam produces a clear, even pattern that is free from hot spots and dark spots. The ergonomically designed 3000 has a balanced, comfortable feel with a rubberized grip that helps prevent slipping. This high performance light produces 700 lm for 2 hr on high, 350 lm for 4 hr on medium and 175 lm for 7 hr on low. A handy 150 lumen penlight adds penlight capability and runs for up to 7 hours. The powerful rubber coated magnetic base secures the light to metal surfaces and allows the light to be angled through a 180 degree range to illuminate the work area. A retractable hook adds versatility and convenience. Includes 3 LED battery indicator, micro USB charging and 120 volt charger. Meets IP65 and IK07 standards. Order No. MXN03000

Body Rotates to Aim Light

Includes 150 lumen Penlight on the top of the Work Light
